Verbal Description

Candelero Fragment - 4 Chakers visible - sort of a square off
 fragment. 2 of the Chakers are in sort of pointed feet w/ rounded tips.

Entire Chaker is burnt - it is very black from the base $\frac{1}{2}$ way up the wall - the rest is
 a light grey color - looks to be more than just smoke - perhaps heat from whatever was
 being burnt in the bottom. Chakers are 1.2 cm in diameter and 3.9 cm deep.
 The paste is really gross & full of temper - just the very exterior has been smoothed over.
 No paint, slip or other decoration.
